As w/ other agmts., I suggest a full timeline be developed so this date can be met. When can this be done?

We would like to have this first contract signed by 10/01/01. Covance is in the process of putting together a scope of work and budget. Once this is received, we can move forward on this first draft.

Loreen-

I suggest we arrange a meeting w/ John R. et al. to discuss. Also, what's the timeline of the proposed first contract re development, etc.?

thanks

Dear Loreen,

Attached is an example of a Phase II-III contract and an Investigator Agreement for reference in preparing the draft contract for the main TES. We would suggest that two contracts be prepared, one for study design/feasibility and one for the actual study. The first contract could be prepared and signed rather quickly I would think.

The following draft timeline was provided in my minutes of Jan's visit to Covance on 05/10/01:

End of 11/01 Power analysis completed to determine no. of subjects, visits, biomarkers, etc.
End of 11/01 Begin site selection
03/01/02 Protocol milestones finalized
04/15/02 Draft protocol to PM for review (2-week turn around on review)
05/15/02 Final protocol
06/16/02 Contract signed (PM and subcontract with individual sites)
06/15/02 Investigator Meeting
07/15/02 Lead site to start enrollment
09/15/02 Remaining sites to complete start of enrollment

Please let me know if you would like me to set up a conference call to discuss further.

Best regards,

Jill
